

Please do not stop broadcasting weather and traffic on XM radio. XM satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve. If services are stopped, this would open the door to freedom speech being stopped on all broadcasting fronts. Respectfully,  
Ken McCabe
